HONORABLE REGINALD STANTON
SUPERIOR COURT OF NEW JERSEY
COURT HOUSE
MORRISTOWN, NEW JERSEY 07960

RE: State of New Jersey, Department of Environmental
Protection v. Scientific Chemical Processing,
Inc., et al
Docket No. L-1852-83E

Dear Judge Stanton:

I have this day received the proposed Order in the above captioned matter and I object to that portion of the Order which relates to any contract which is entered into be acceptable to the Department of Environmental Protection. It would seem to me that the Court is concerned with having a contract entered into which can be lived up to as nearly as possible by the parties thereto and that said contract should be the end result of the negotiations between those parties. The primary concern of the Department of Environmental Protection should be to have the work of the contract completed in a manner satisfactory to the Department.

I am this day executing a contract with S & W Waste, Inc. but I have not submitted same to the Department of Environmental Protection for its prior approval.

Respectfully yours,

PRESTO & BARBIRE
